ITINERARY

We've created a unique diving schedule to meet training requirements while visiting the best dive sites on the west coast of Thailand. For scenario training or skill development we'll tuck ourselves into a bay with calm conditions and amazing shallow reefs. Other times we'll dive in the open blue on deep pinnacles, walls and wrecks. Sightings of giant Groupers, Morays, Trevally, Manta Rays and Whalesharks are common on our route! With a variety of dive sites and environments we can even arrange Pro Specialty training to run concurrent with Divemaster and Instructor programs.
